

△ INTRICATE INLAYS

The Taj Mahal is decorated with gemstone inlays that feature the plant forms, arabesques, and geometric patterns typical of Islamic art.

△ THE MAUSOLEUM

Built on the banks of the Yamuna River and set on its raised platform, the Taj Mahal's central mausoleum is strikingly regular and symmetrical in its proportions and the arrangement of its arches and domes.

◁ LOVERS' TOMBS

The mausoleum's central chamber contains the cenotaphs of Shah Jahan and Mumtaz; their bodies lie in a lower level.
