Clock Day

A type of water clock called a *rokoku* was introduced in Japan for the first time during the reign of Emperor Tenji. This device kept time by measuring the flow of water from one vessel to another. Japanese citizens still celebrate this date as Clock Day.

2015

A quiet place

Tests carried out in a specially built chamber at the headquarters of technology company Microsoft in Redmond, Washington, USA, revealed that it was the quietest place in the world. The chamber's walls absorb all echoes, preventing any sound.

Racing to Paris

Starting from the French embassy in Beijing, China, five teams set off on a gruelling 16,000 km (10,000 mile) automobile race to Paris, France.

1907

Born this day

1922 Judy Garland, US actor, singer, and dancer. She became an international star playing Dorothy in the 1939 film *The Wizard of Oz*.

Also on this day

1829 In Britain, the first annual Boat Race between Oxford and Cambridge universities, held on the River Thames in London, took place. Oxford won.

1940 Italian dictator Benito Mussolini declared war on Britain and France, bringing Italy into World War II.

2016 Scientists in Iceland announced that injecting carbon dioxide into volcanic rocks can turn it into stone. This locks up the gas underground, preventing it from reaching the atmosphere.
