

## US slaps almost 126% tariff on solar imports from India

The US Department of Commerce has imposed countervailing duties of 125.87% on solar cells and panels imported from India, the highest among the targeted countries, citing unfair subsidies. India exported \$792.6 million worth of solar products in 2024, while India, Indonesia, and Laos together supplied about two-thirds of US solar imports.

## Government approves ₹100 billion Startup India Fund of Funds 2.0

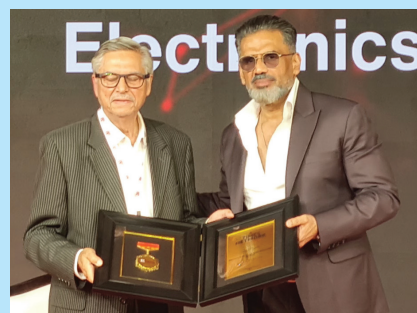

The Union Cabinet of India has approved the ₹100 billion Startup India Fund of Funds 2.0 to mobilise venture capital for startups. Building on the 2016 fund, the scheme will back deep tech, advanced manufacturing and early-stage founders while expanding investment beyond major cities.

## Cabinet eases FDI norms to boost electronics investments

India's Union Cabinet has eased the rules under Press Note 3, allowing up to 10% beneficial ownership from neighbouring countries, including China, via the automatic route in selected manufacturing sectors. A

## Electronics For You Group bags top honour in Tech Media Excellence

Electronics For You Group secured the Excellence in Technology Media & Knowledge award at ETNow Business Conclave & Awards 2026, held on March 20, 2026. Executive Chairman Ramesh Chopra accepted the honour from Suniel Shetty—film actor, producer, and entrepreneur—on behalf of the Group. He attributed the recognition to its readers and a 57-year legacy since 1969, dedicated to empowering India's technology community with trusted knowledge.

Ramesh Chopra receiving the award from Suniel Shetty

60-day approval timeline aims to boost investments in electronics components linked to the ₹229.19 billion ECMS.

## Gujarat unveils STI policy to boost semiconductors and tech innovation

Gujarat Chief Minister Bhupendra Patel launched Gujarat's Science, Technology and Innovation Policy 2026-2031 at Gujarat SemiConnect Conference, introducing a ₹10 billion Swadeshi Anusandhan Fund to support 100+ projects annually in semiconductors, AI, and other sectors. The policy plans GRRIC research clusters, 100,000 researchers by 2030, and 200 IP centres targeting 1000+ filings, including 500 patents.

## Andhra Pradesh clears ₹23.88 billion OSAT plant

Advanced System in Package Technologies has secured approval from the Andhra Pradesh government to establish a ₹23.88 billion OSAT facility in Taruvada, Visakhapatnam, creating 1000 direct jobs. The Cabinet also cleared Adani Infra's 1000MW AI data centre cluster and renewable projects, including NTPC's 900MW solar plant.

## India launches three of its own AI models at AI Summit 2026

Three sovereign India-made AI models were unveiled under the IndiaAI Mission at the India AI Impact Summit in New Delhi. Sarvam AI introduced two large language models; Gnani.ai launched a multilingual text-to-speech system; and BharatGen unveiled a 17B-parameter Indic model to support governance, enterprise, and public-service AI applications.

## India joins Pax Silica to strengthen AI supply

India has joined Pax Silica, a US-led coalition to strengthen supply chains for critical minerals, semiconductors, and AI. Signed in New Delhi with participation from Ashwini Vaishnaw, Minister of Electronics and IT, and Sergio Gor, the US Ambassador to India, on February 20, 2026, the move deepens technology cooperation with partner nations and supports India's ambitions in advanced technologies and resilient global supply networks.

## Apple now makes 25% of iPhones in India

Apple Inc. reportedly assembled 55 million iPhones in India in 2025,
