- Tata Power launches Telangana's first high-speed TATA.ev MegaCharger Hub in Hyderabad and plans new facility in Odisha
- Tamil Nadu captures 42% of India's electronics exports

NTPC invests ₹50 billion in battery storage

NTPC is investing ₹50 billion to install 5GWh of battery energy storage systems at its coal-fired power plants. The project aims to capture excess solar and wind power, reduce renewable energy curtailment, improve grid stability, and support cleaner power integration under a CERC-approved tariff framework.

Navitas Solar to invest ₹15 billion in solar cell plant

Navitas Solar will invest ₹15 billion to establish a 3.6GW solar cell manufacturing facility and a pilot wafer and ingot production line in Gujarat. The first phase is targeted for commissioning in 2027 as part of the company's backward integration strategy. The project is expected to create around 1000 direct jobs and strengthen domestic solar manufacturing.

Hitachi Energy invests ₹10 billion in Tamil Nadu

Tamil Nadu government has signed an MoU with Hitachi Energy for a ₹10 billion expansion in Porur and

Updates From EFY Group

Event, Date and Venue	Topics	Contact for details
Bharat Electronics Component Manufacturing Summit 2026 August 19, 2026 PHD House, New Delhi	A summit uniting policymakers, industry leaders, investors, and academia to advance electronics component localisation, resilient supply chains, advanced manufacturing, R&D, policy, and investment for strengthening India's electronics manufacturing ecosystem.	Website: https://www.phdcci.in/events/bharat-electronics-component-manufacturing-summit-2026
Open Source India October 7-8, 2026 NIMHANS Convention Center, Bengaluru	One of India's leading open source conferences, OSI brings together developers, architects, and tech leaders. Expect deep-dive sessions, real case studies, and conversations around the future of open tech.	Website: https://opensourceindia.in
EFY Expo Gujarat December 3-5, 2026 Helipad Exhibition Centre, Gandhinagar, Gujarat	A fast-growing regional expo focused on electronics manufacturing and innovation in Western India. It's a great platform for discovering new suppliers, partners, and emerging technologies.	Website: https://gujarat.efyexpo.com
EFY Expo Pune January 21-23, 2027 Auto Cluster Exhibition Center, Pimpri, Pune, India	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://pune.efyexpo.com
AI DevCon 2027 March 4-5, 2027 NIMHANS Convention Center, Bengaluru	A two-day conference for developers, IT leaders, researchers, and enthusiasts to explore and work with AI, covering tools, frameworks, GenAI, edge and cloud AI, open source innovations, and industry case studies.	Website: https://www.aidevcon.in

Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

Chengalpattu. The project will add a semiconductor-based HVDC power conversion manufacturing line for grid and renewable-energy applications, expand the Global Technology and Innovation Centre, and create around 1000 high-skilled jobs within five years.

Syrma SGS and Kaga Electronics form EMS joint venture

Syrma SGS Technology has partnered with Kaga Electronics to establish a joint venture for electronics manufacturing services in India for Japanese customers. Syrma SGS will hold a 60% stake, while Kaga Electronics India will own 40%. The venture combines manufacturing expertise with Kaga's customer network.

vivo transfers India manufacturing to Dixon-led joint venture

vivo is set to transfer its Greater Noida smartphone plant to its 51:49 joint venture with Dixon Technologies, following government approval. The JV will manage vivo's entire India smartphone production, expand into IoT devices, and explore exports, strengthening localisation and positioning India as a manufacturing and export hub for electronics.

Amber to manufacture Oppo, OnePlus smartphones

Amber Enterprises India has signed

a manufacturing collaboration with Oppo Mobiles India to produce smartphones for Oppo, OnePlus, and Realme, marking its entry into large-scale smartphone manufacturing. The partnership will leverage Amber's manufacturing scale, local supply chain, and value-addition capabilities, strengthening India's electronics manufacturing ecosystem and supporting increased localisation.

Sarvam becomes India's latest AI unicorn

Sarvam has raised \$234 million at a \$1.5 billion valuation, becoming India's latest AI unicorn. Led by HCLTech's \$150 million investment, the funding will accelerate development of sovereign AI models, computing infrastructure, and enterprise applications, strengthening the Bengaluru startup's expansion across government, finance, and defence sectors.

TakeMe2Space and QOSMIC build India's first optical satellite network

TakeMe2Space has partnered with QOSMIC to develop India's first indigenous optical inter-satellite link network. Integrated into the MOI constellation, the laser-based system will enable secure in-orbit data transfer for defence and commercial applications, with the first optical communication terminal scheduled for launch in 2027.
