

HETZNER

Sovereignty starts with hosting it yourself.

- ✓ *MINIMIZE RISKS*
- ✓ *CONTROL COSTS*
- ✓ *MAXIMIZE DATA PROTECTION*

Take control of your tech stack with Hetzner and open source:

Coolify

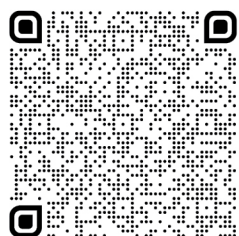

Your open-source tool for easily hosting websites, databases, and web applications on your own server.

Forgejo

Host your own open-source alternative to Git, which you can use to manage, review, and collaboratively develop your code.

Node-RED

Use drag-and-drop to connect devices, APIs, and services to create automated workflows without writing much code and using open-source technology.
