

FSWX Signal and Spectrum Analyzer

MEASURE THE IMPOSSIBLE

Visit us in:
BOOTH NO. D-1

19-20 July 2026

Hotel Sheraton Grand, Whitefield,
Bangaluru

The FSWX is revolutionizing signal and spectrum analysis. This latest addition to the Rohde & Schwarz signal and spectrum analyzer portfolio is the world's first analyzer with multiple input ports, preselection and an internal multi-path architecture supporting cross-correlation - especially suitable for RADAR, EW and wideband signal analysis.
