

Physical AI 4 AOL

Every inspection. One platform.

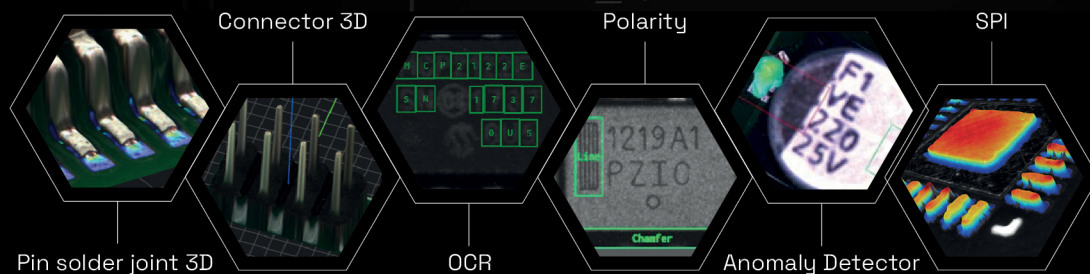

A Physical AI platform engineered to adapt across every SMT and THT stage. Combining proprietary neural networks, true 3D measurement technology, and continuous learning to reduce human error and maximize production stability.

Training manager. On-machine training with AI, connected to your production.

Learns without forgetting. No retraining. Always improving.

See more: underfill, encapsulation glues, UV-reactive substances, fine-pitch elements

Increase First Pass Yield beyond 99%.

DELVI[®]
TECH

Swiss Precision Thinking.
Powered by AI.
Perfect by Design.

**It's more than innovation.
It's a higher order of intelligence.**
