MoD signs ₹4.49 billion Navy jammer deal

India's Defence Ministry has signed a ₹4.49 billion contract with Bengaluru-based Accord Software and Systems to supply 20 enhanced capability GNSS jammers for the Indian Navy. Signed under the buy (Indian-IDDMM) category with 75% indigenous content, the systems will disrupt hostile satellite navigation, enhance naval survivability, and strengthen maritime security.

BEL deepens defence innovation through partnerships

Bharat Electronics Ltd (BEL) has signed two agreements to strengthen India's defence ecosystem. An MoU with Bengaluru's IISc-backed FSID will promote innovation, R&D, and collaboration with startups, academia, and MSMEs, while a pact with DGQA will ensure the long-term provisioning of electronic fuzes for weapon trials and quality assurance. Together, the initiatives

Updates From EFY Group

Event, Date and Venue	Topics	Contact for details
Open Source India October 7-8, 2026 NIMHANS Convention Center, Bengaluru	One of India's leading open-source conferences, OSI brings together developers, architects, and tech leaders. Expect deep-dive sessions, real case studies, and conversations around the future of open tech.	Website: https://opensourceindia.in
EFY Expo Gujarat December 3-5, 2026 HeliPad Exhibition Centre, Gandhinagar, Gujarat	A fast-growing regional expo focused on electronics manufacturing and innovation in Western India. It's a great platform for discovering new suppliers, partners, and emerging technologies.	Website: https://gujarat.efyexpo.com
EFY Expo Pune January 21-23, 2027 Auto Cluster Exhibition Center, Pimpri, Pune, India	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://pune.efyexpo.com
AI DevCon 2027 March 4-5, 2027 NIMHANS Convention Center, Bengaluru	A two-day conference for developers, IT leaders, researchers, and enthusiasts to explore and work with AI, covering tools, frameworks, GenAI, edge and cloud AI, open-source innovations, and industry case studies.	Website: https://www.aidevcon.in

support defence indigenisation and Atmanirbhar Bharat objectives.

West Bengal eyes bigger electronics hubs through EMC 2.0

West Bengal is accelerating its electronics manufacturing ambitions by leveraging the Centre's EMC 2.0 scheme. The state is reviewing the Naihati and Falta clusters for expansion, identifying land for new projects, and seeking faster approvals. EMC 2.0 offers up to 50% in central funding for infrastructure, aimed at attracting investors and boosting electronics production.

Haryana passes new electronics, e-waste policies

Haryana has approved new electronics manufacturing and e-waste recycling policies, offering incentives of up to ₹2 billion per unit to attract investment. The state also plans a 500-acre electronics cluster at IMT Sohna and is drafting a semiconductor policy. The measures aim to boost local manufacturing, recycling, green jobs, and electronics supply chain development.

L&T commits ₹25 billion to Tamil Nadu electronics unit

Larsen & Toubro has committed ₹25 billion to establish a new electronics manufacturing facility in Coimbatore, Tamil Nadu, expected to create around 2000 jobs. The investment forms part of a broader ₹186-billion agreement with the state government and supports Tamil Nadu's strategy to strengthen its

electronics manufacturing ecosystem and attract advanced technology-driven industrial investments.

DigiKey sponsors AIoT Design Challenge 2026

DigiKey has sponsored the AIoT Design Challenge 2026, inviting students, engineers and makers to develop real-world

DigiKey

AIoT solutions. Shortlisted participants will receive development boards from Analog Devices, Arduino and M5Stack, while the winner will receive ₹100,000. Industry experts will judge entries on innovation, practical applicability and execution.

Adani launches 3.37GWh battery storage project

Adani Green Energy has commissioned a 3.37GWh battery energy storage system at Khavda, Gujarat, with 1.37GWh added in March 2026. Completed in just 10 months, the project will enhance grid stability, meet peak demand and support round-the-clock renewable power.

Olectra plans ₹6 billion heavy commercial EV expansion

Olectra Greentech plans to invest ₹4-6 billion over two years to expand production and enter the heavy electric commercial vehicle segment. The company is developing 55-tonne electric tractor-trailers and 38-tonne tippers, while exploring local battery assembly.
