Smart Home Lighting

Smart Home Appliances

Life Safety Protection

Smart Business

Human body sensing Smart Security

Human Body Tracking Smart Air-condition

Multi-stage intelligent parameters adjustment

Large detection angle is $\pm 60^\circ$

Support ceiling mounting, wall mounting, etc.

The fastest detecting distance is 6m/8m/9m/10m

Plug and play, simple assembly method

Low power consumption

Finger Print

HLK-ZW0906 Finger Print Sensor

Compact module with advanced biometric algorithms, supporting 1000+ fingerprint templates for smart access and security systems.

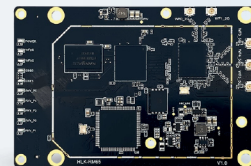

Face Recognition

HLK-10W - AI Face Recognition module

AI vision algorithm module with integrated face, palm print, and QR code recognition, enabling multi-factor identity authentication with UART integration. Supports 1000 faces & 1000 palms storage capacity.

Wi-Fi module

HLK-RM65 Wi-Fi Module

A high-performance WiFi6 AX3000 module with dual-band wireless connectivity upto 3000Mbps for smart networking applications.
