Consumer IoT Market In India Grows At 12.1% CAGR

India's consumer IoT market is set to grow from US\$9.68 billion in 2025 to US\$27.05 billion by 2034 at a CAGR of 12.1%. In terms of components, hardware currently accounts for 44% of revenue, while wireless connectivity dominates at 80%. Consumer electronics account for 36% of applications, and South India holds 37% of the market, supported by IT hubs and infrastructure. Growth is driven by rising demand for connected devices, expanding e-commerce channels, and government policies.

Global PC Shipments Reach 65.6 Million In The First Quarter Of 2026

Worldwide PC shipments rose 2.5% YoY in Q1 2026 to 65.6 million units, driven by Windows 10 migration, new launches, and anticipation of rising component prices. Lenovo led sales with 16.5 million units, up 8.6% YoY and with a 25.2% market share, followed by HP, down 4.9%; Dell, up 7.7%; Apple, up 9.1%; and ASUS, up 17.1%. However, supply chain volatility and rising costs threaten the market.
