

SMT Laser Marking Selection Guide

SELECTION FACTOR	WHAT TO CHECK	RECOMMENDED CHOICE	WHY IT MATTERS
Laser Type	UV/Fiber/CO ₂ /Green	UV (355nm) for electronics	UV offers 'cold marking' → no PCB damage, ideal for sensitive components
Material Compatibility	Bare PCB/Solder mask/Metal	Match laser to material	Fiber works best for metal, UV for coated PCBs
Marking Quality	Contrast, readability, micro codes	High-resolution ($\leq 10\mu\text{m}$)	Needed for QR/DataMatrix traceability compliance
Marking Speed	mm/sec or UPH	$\geq 5000\text{--}7000\text{mm/s}$	Impacts SMT line throughput
Vision System	CCD + fiducial recognition	Mandatory	Ensures precise marking on small PCB areas
SMT Line Integration	SMEMA/IPC/MES connectivity	Full inline integration	Seamless data flow and automation
Traceability Capability	QR, DataMatrix, serialisation	Must support 2D codes	Required for automotive and electronics compliance
PCB Size Handling	Max and min board size	Match your product mix	Avoid bottlenecks in production
Inline vs Offline	Inline machine vs standalone	Inline preferred	Reduces manual handling and improves efficiency
Thermal Impact	Heat-affected zone	Minimal (UV preferred)	Prevents PCB warping or component damage
Software and MES	Data logging, anti-duplicate marking	MES-ready system	Critical for Industry 4.0 traceability
Maintenance	Consumables, downtime	Low maintenance (fiber/UV)	Reduces long-term cost
After-Sales Support	Local service availability	Strong regional support	Critical for SMT uptime
Budget vs Application	Capex vs production scale	Align with volume	High-end for automotive, mid-range for EMS

THANK YOU TO OUR ESTEEMED ADVISORY PANEL

We extend our sincere gratitude to our esteemed Advisory Panel—

Mr B.N. Shukla (Jabil Circuit India Pvt Ltd), **Mr Shrikant Borkar** (Intelux Electronics Pvt Ltd), **Mr Mukesh Vasani** (Aimtron Electronics Limited),

Mr Ashvin Navadia (Vinrox Technologies), and **Mr Narayan Kumar J.**

(Sanjay Technologies Pvt Ltd)—for graciously being part of our Advisory Panel and for their constant guidance and support.

To help electronics manufacturers make informed decisions while purchasing manufacturing equipment, the *Electronics For You* team has taken on the challenge of publishing a directory of leading suppliers in India and the brands they offer. The next few lists planned include: **BGA Rework Station** and **Solder Paste/Screen Printer**. To enquire about being featured here, please write to efy-edit-team@efy.in.
