Products

ADIY QUECTEL L89HX GNSS BREAKOUT BOARD

ADIY GPS Breakout Board (**Quectel L89HX**) is an easy-to-use module for adding location tracking to your projects. It connects via MCU (UART), supports external antenna.

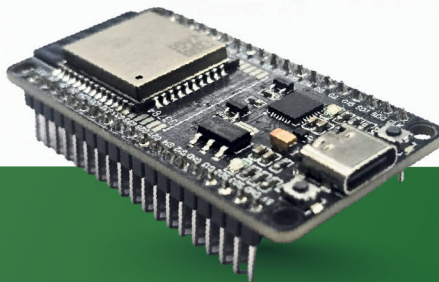

✦ *Ideal for prototyping GPS-based applications like navigation and tracking.*

ADIY ESP32 WROOM 38 PIN

ESP-WROOM-32 is a powerful dual-core MCU module with **built-in Wi-Fi and Bluetooth/BLE**, designed for IoT and embedded applications. With rich GPIO, ADC/DAC, and multiple interfaces.

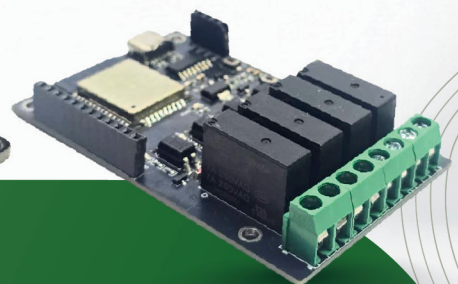

✦ *Ideal for smart devices, automation, and wireless control systems.*

ADIY IOT 4 CH RELAY BOARD

ADIY IoT Relay Board (ESP32) is a compact **Wi-Fi + Bluetooth**-enabled control board for switching devices remotely. It features 4 opto-isolated relays, GPIO expansion, and I2C support.

✦ *Ideal for smart home, IoT automation, and industrial control applications.*
