CHENNAI MAPPED THE FUTURE OF SMART MANUFACTURING

On 3 July 2026, Mouser Electronics brought its roadshow to Hyatt Regency, Chennai, focusing on technologies driving smarter and more resilient manufacturing. The event explored industrial connectivity, wireless networks, IoT, and networking infrastructure, with sessions covering resilient wireless platforms, smart manufacturing, and networking devices. For Chennai's engineering community, the programme highlighted how advances in connectivity and electronics are helping manufacturers build more connected and efficient industrial systems.

SESSION TITLE	SPEAKER
Keynote Address	Srinivas Parikshith
Silicon Labs Connectivity Platforms for Resilient Wireless Networks in Smart Manufacturing and Industrial IoT	Sameer Vasant Nivangune
Evolution of Smart Manufacturing	Jibu Babu
Networking Devices Portfolio Enabling Smart Manufacturing	Gavin Pereira
Open House Q&A and Vote of Thanks	-

Aseem Uppal, TE Connectivity
