Improve Your Image...

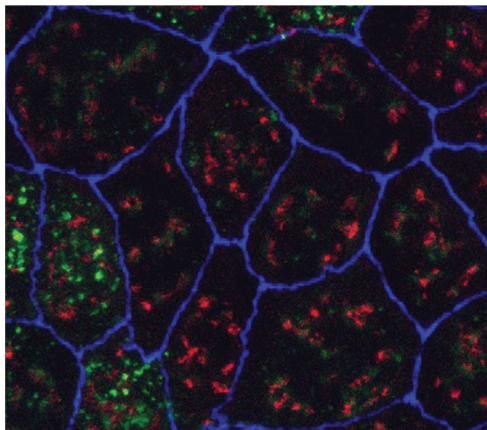

Image by: Dr. Beni Aroeti, Institute for Life Sciences, Hebrew University.
Filter sets: Chroma Technology Corp

From routine fluorescence to the most demanding imaging experiments, Chroma has a filter set built for your needs. Chroma's AT and ET filter sets are engineered to deliver reliable, high-performance fluorescence imaging. Both sets offer:

- Tight tolerances
- Steep spectral edges
- Verified performance
- High signal-to-noise

Now available in India through Photik Scientific.
