

ATLANTIC PROVINCES
Nova Scotia, New Brunswick, Prince Edward Island, and Newfoundland and Labrador attract tourists for their landscape, wildlife, and quaint seaside villages. Icebergs are a regular sight off the coast of Newfoundland and Labrador as they drift south from the Arctic.

FISHERIES
The Grand Banks, off the coast of Newfoundland, are shallow waters that once contained huge stocks of fish. Stocks have declined, however, due to overfishing, and now catches are severely restricted. Tourism has been a valuable alternative for those who relied on fishing for their livelihood.

FRENCH CANADA
Québec province is the main French-speaking part of Canada. With a different language and cultural traditions from other parts of the country, there have been calls in the past for Québec to become independent from the rest of Canada.

ST LAWRENCE SEAWAY
Stretching far inland, the St Lawrence Seaway provides a link from the Great Lakes to the Atlantic. A series of huge locks descends from Lake Ontario to sea level, allowing ocean-going ships to transport their cargo as far inland as Lake Superior. Large amounts of iron ore, for example, are transported inland from Labrador to Ontario for processing. Corn, soy, and other agricultural products move in the opposite direction, from the prairies east to the markets of the world.
