

AMAZON TRANSPORT

The Amazon River provides Brazil with its most important transportation link, not only for tourists but also for trade. Large boats can travel as far inland as the city of Manaus.

RIO CARNIVAL

During the five days leading up to Lent, Rio de Janeiro celebrates Carnival. There are street parties, balls, and parades in the streets, and samba schools compete for awards for best costume and best float.

São Paulo has the world's largest Japanese community outside Japan.

BEACH CULTURE

Wide, sandy beaches along the eastern coast of Brazil provide a playground for large numbers of Brazilians who come here to relax, meet friends, and play volleyball or football. By far the most popular beach is Copacabana (right) in Rio de Janeiro. Only the strongest swimmers brave the strong tides of the Atlantic.
