

Apollo and Artemis

Once he took the throne on Mount Olympus, Zeus married his sister Hera. Together, they had many children, including Ares, the god of war.

However, even though Zeus was married to Hera, he continued to fall in love with other goddesses and mortal women, and he fathered many more children. Some of these children were born as gods, too, and this made Hera extremely jealous.

In her anger, Hera often punished the women Zeus loved, whoever they were.

Leto was goddess of motherhood and Zeus thought she was very beautiful. They fell in love and Leto became pregnant with twins.

Hera seethed with jealousy.
