

We're having
a pool party!

It's getting a
bit crowded!

2

Put the tub
and your toy
animals in the
freezer overnight.

3

Is the iceberg frozen?
Turn the tub upside
down until your
iceberg pops out.

**Adult
ALERT!**

Check your freezer to see
what is happening to the
water. When it gets to 0°C , the
water will start to freeze.

Brrr!
It's cold in the freezer.
