

Let's make a potion

Be a **science wizard** with this awesome potion experiment. This is a real **chemical reaction** you can do at home. It's messy, so be prepared!

You will need:

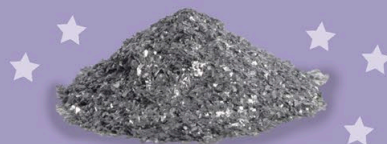

vinegar

washing-up liquid

food
colouring

glitter and
glitter stars

baking soda

Trial and error is a big part of being a scientist. Try this experiment with different amounts of the ingredients to see if anything changes.

Make
your potion
magical!
