TYPE FRAPPÉ

MILK WITHOUT

It may seem odd to pair a sweet fruit with a herb, but basil's mint and licorice notes go really well with strawberries. Be prepared to be pleasantly surprised as aloe juice makes for a very frothy frappé.

- 10 **strawberries**, sliced
- 2 tbsp **chopped basil leaves**
- 1 cup **aloe juice**
- 4 **ice cubes**

Special equipment

blender

1 Place the strawberries, basil leaves, and aloe juice in a blender and blend until smooth and frothy. The heavy froth is a result of the gel in the aloe juice.

2 Add the ice cubes and continue to blend until the ice is crushed.

SERVE IT UP Pour into 2 tumblers.
