

CADFEM®

Ansys / ELITE
CHANNEL PARTNER

Empowering Innovation with **Electromagnetic and Semiconductor Solutions**

AI-Driven Digital Engineering Solutions

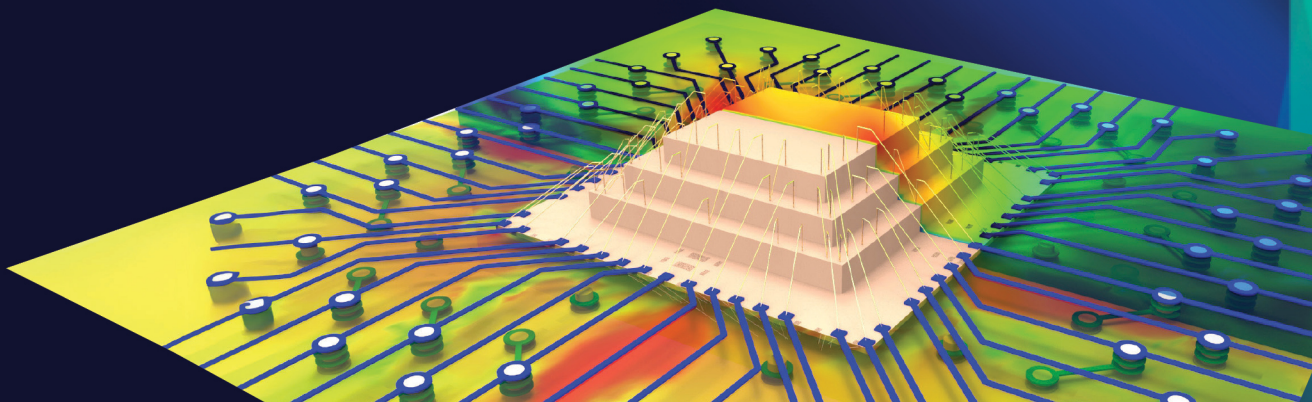

Electromagnetic Solutions

- Signal Integrity & Power Integrity
- Antennas & RF Systems
- Electric Motors & Generators
- PCB Design & Optimization
- Cable & Connector Simulations
- EMI/EMC Compliance

Semiconductor Solutions

- Signal Integrity for IC Packages
- 3D and 2.5D IC Package Analysis
- Power Integrity for IC Packages
- Via and Bump Modeling
- RLGC Extraction for IC Packages
- Parasitic Extraction for Packages

At CADFEM, we deliver high-fidelity simulation solutions to tackle complex challenges in semiconductor and electronics design. As an Ansys Elite Channel Partner, we help businesses accelerate product development, cut testing costs, and ensure compliance. Our expertise spans electromagnetic and semiconductor solutions, providing state-of-the-art simulation tools to enhance performance, optimize design, and ensure reliability. We offer tailored consultation, expert training, dedicated technical support, and AI-driven digital engineering solutions, seamlessly bridging the gap from design to production.
