## INDUSTRY UPDATES

### Tata plans ₹300 billion electronics manufacturing unit in Assam

Tata Group is planning a ₹300 billion mobile tech manufacturing facility in Assam, which will create 30,000 jobs. This follows their ₹270 billion semiconductor project in Morigaon, which marked significant industrial growth for the state. The initiative, announced at the Advantage Assam 2.0 Summit, strengthens Assam's position as a hub for electronics and high-tech manufacturing through skilled workforce development.

### Tata signs fiscal support deal with ISM for its Dholera fab

Tata Group firms—Tata Electronics and Tata Semiconductor Manufacturing—have signed a 50% fiscal support deal with the India Semiconductor Mission for the ₹910 billion Dholera fab, set to be India's first and already a beneficiary of government aid. This fabrication facility is expected to generate more than 20,000 direct and indirect

jobs, with an anticipated capacity of producing 50,000 wafers per month. The project also includes a partnership with Taiwan's Powerchip Semiconductor Manufacturing Corporation (PSMC) for expertise in addressing global semiconductor demands in sectors such as automotive, computing, communications, and artificial intelligence.

## PEOPLE (on the move)

#### Lip-Bu Tan takes over as Intel's new CEO

Intel has appointed Lip-Bu Tan as its new CEO, succeeding interim co-CEOs David Zinsner and Michelle Johnston Holthaus. Tan, a seasoned tech leader with over 20 years of experience, previously led Cadence Design Systems. Under his leadership, Intel hopes to rebound and enhance its business and shareholder value.

#### Samsung Electronics names its veteran leaders for board

Samsung Electronics has nominated Young Hyun Jun, head of its chip business, and CTO Jai-hyuk Song for board positions, aiming to strengthen its semiconductor division. Additionally, Dr Hyuk Jae Lee, a semiconductor expert from Seoul National University, is set to join as an external director. These changes come with Samsung's increased focus on bolstering its chip business amid market challenges and competition.

#### Nothing Co-Founder Akis Evangelidis becomes its India President

Nothing has appointed co-founder Akis Evangelidis as President of its India operations, aiming to boost expansion ahead of the Phone 3a launch. Evangelidis, with extensive experience at Sony and OnePlus, will oversee increased retail presence and local production in India. This move follows Nothing's record 577% growth in 2024, making it India's fastest-growing smartphone brand.

#### Micron appoints former TSMC Chief Mark Liu and Christie Simons to board

Micron has named Mark Liu, former co-CEO of TSMC, and Christie Simons, ex-partner at Deloitte, to its board to drive growth in the AI sector. With Liu's extensive semiconductor experience and Simons' expertise in finance and technology, Micron aims to strengthen its position in the AI-driven data centre market.
