like MacBooks and iPhones, diversifying Apple's supply chain. Key suppliers like Tata Electronics and Motherson Group are boosting local manufacturing. The move aligns with India's goal of \$35-40 billion in exports by 2030, supported by government incentives.

Trump's tariff plans could impact Apple's India base

Apple could face challenges if the US imposes reciprocal tariffs on electronics and smartphones from India, potentially impacting its growing manufacturing base here. With India's 16.5% import duty, the US may retaliate, affecting Apple and other companies like Samsung.

Starlink lands in India via Airtel partnership

Airtel has partnered with SpaceX to bring Starlink satellite internet to India, but regulatory approvals are pending. The collaboration aims to improve connectivity in remote areas by integrating Starlink's technology with Airtel's existing services. It also seeks to enhance broadband access for underserved communities, schools, and businesses nationwide.

LG India's ₹150 billion IPO; roadshows, CEO visit planned ahead

LG Electronics is gearing up for its ₹150 billion IPO, with roadshows underway to attract investors. The IPO, set for April-May, aims to raise up to \$1.5 billion, valuing LG India at \$15 billion. CEO Kwang Mo Koo will visit India to finalise plans, marking his first business trip in over a decade.

CDIL and Infineon forge semiconductor collaboration in India

CDIL Semiconductors has signed an MoU with Germany's Infineon Technologies to develop advanced power semiconductor products for India's needs in e-mobility, renewable energy, and energy-efficient appliances. Infineon will supply wafers, which CDIL will package into tailored products, boosting India's semiconductor industry and supporting the country's self-reliance goals.

Can a Board from India Compete with Arduino Uno & Raspberry Pi RP2040?

"YES, we can!"

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors (Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
