46.1 KEY LANGUAGE QUESTION TAGS

When you use question tags, a negative question tag follows a positive statement, and a positive question tag follows a negative statement. The verb that is used in the question tag depends on the verb that is used in the statement.

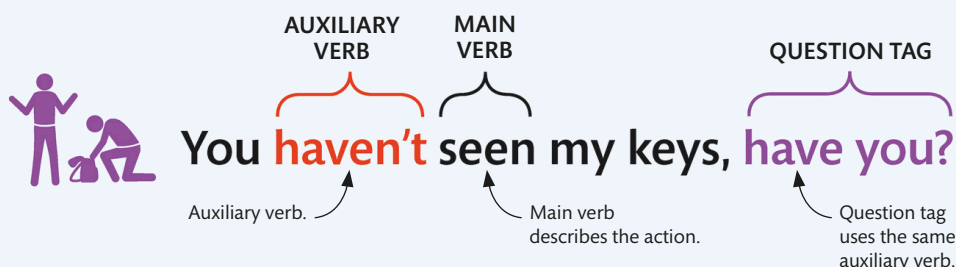

A present simple statement is followed by a question tag with the present simple form of "do."

A past simple statement is followed by a question tag with the past simple form of "do."

A statement with an auxiliary verb is followed by a question tag with the same auxiliary verb.

A statement with the verb "be" is followed by a question tag that also uses "be."
