

WIRELESS MODULES ESPRESSIF

1 ESPC2-12/12E

Compact Wi-Fi & BLE module based on **ESP8684H2/H4**. Compatible with ESP8684-WROOM-01/04, WB3S, and 12F modules

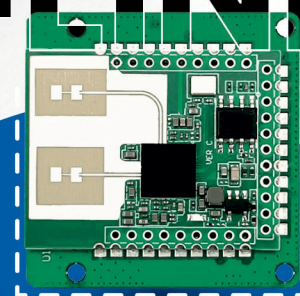

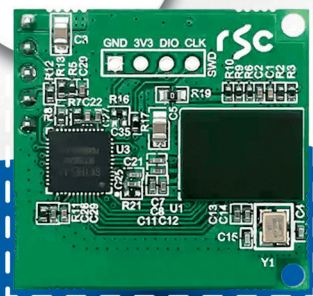

2 ESP-12E/12F

Compact Wi-Fi module based on the **ESP8266** chip. Ideal for IoT applications, with onboard antenna & 2.4 GHz Wi-Fi

3 ESP32-32D/32E/32UE

ESP32-32 series modules are compact, universal Wi-Fi + BLE solutions based on **ESP32-D0WD** chips. Offers multiple storage options and fully compatible with corresponding ESP32-WROOM modules.

HI-LINK RADAR MODULES

Entrance and Exit People Counting Radar Module

HLK-LD6001C is a 60GHz radar module for entry/exit detection and people counting. It tracks movement direction within a defined zone with detection range of **0.5 to 8 meters**.

10-axis Gyroscope Sensor Module

HLK-AS201 is a 10-axis attitude sensor module with built-in accelerometer, gyroscope, magnetometer, and barometer. It delivers **real-time** orientation data.

Infant Respiratory and Heartbeat Detection Radar

HLK-LD6002H is a 60GHz mmWave radar module for non-contact detection of infant respiration and heartbeat. Enables intelligent monitoring up to **1.5 meters** range.
