

Under one Roof → Turning Concepts → Custom Molds → Finished Trays

Looking for Customised Trays (ESD) for Electronics Components?

We have that capability in India!

With us, you're not just hiring a packing supplier- you're partnering with a team dedicated to solving your unique challenges. We provide custom thermoformed packing for electronics, tailored to your product for optimal protection, precision and premium presentation that reflects the quality of your brand.

TECHNICAL DETAILS

Surface resistivity between 10^6 and $10^9 \Omega/\text{square}$, as per ASTM D618

Choice of APET or PCR rPET or HIPS

Dual benefits of static-free protection & sustainability

In House Extrusion lines and Tool Room

GDK SOLUTIONS

Executing Excellence In Packaging

ARDUINO^{PRO}™

An unconventionally simple path to **IoT Success**

The PRO line is designed to enable businesses to quickly and securely connect remote sensors to business logic within one simple IoT application development platform, transferring the productivity and creativity that makers enjoy with Arduino into the business world.

Portenta Family Modules

Portenta H7

Program it with high-level languages and AI while performing low-latency operations on its customizable hardware.

Portenta X8

Leverage the Arduino environment to carry out real-time tasks while Linux takes care of high-performance processing.

Portenta C33

Portenta C33 features the Arm® Cortex®-M33 microcontroller. The cost-effective, high-performance module that makes IoT accessible.
