Indian EMS sector reaches ₹163 billion, Avalon and Kaynes leads

India's electronics manufacturing service (EMS) sector saw a 23% surge in FY25 order bookings, reaching ₹163 billion, driven by demand in aerospace, EVs, and industrial tech. Firms like Avalon and Kaynes lead growth through exports, clean energy, and new facilities. Analysts commended schemes such as the Production-Linked Incentive (PLI) and Electronics Components Manufacturing Scheme (ECMS) for this growth.
