and a semiconductor partnership with Tata Electronics underline BEL's growing role in defence, tech innovation, and self-reliant manufacturing.

GNG Electronics gets SEBI greenlight for ₹4.5 billion IPO

GNG Electronics has received approval from the Securities and Exchange Board of India (SEBI) for its IPO, which features a ₹4.5 billion fresh issue and a 5.1 million-share offer for sale. India's top Microsoft Authorised Refurbisher, GNG, posted ₹11.38 billion revenue in FY24. IPO proceeds will be used to repay debt and fund growth, supporting its expansion across India, the US, and the UAE.

CEL and ESDS unite for ₹10 billion smart data centre in Ghaziabad

Uttar Pradesh laid the foundation for a ₹10 billion Green Data Centre in Sahibabad, Ghaziabad, jointly developed by Central Electronics Limited (CEL) and ESDS Software Solution Limited. Designed to Tier III standards, the 30-megawatt facility will boost digital infrastructure, support startups, and promote sustainability. Leaders hailed it as a strategic step towards innovation, self-reliance, and India's *Viksit Bharat @2047* vision.

Applied Materials backs \$400 million chip lab in Bengaluru

Applied Materials is establishing a ₹48.51 billion 'Innovation Center for Semiconductor Manufacturing' in Bengaluru to drive chip R&D and future investments of over \$2 billion. The 4.05-hectare unit will develop advanced manufacturing tools, foster academic collaboration, and build skilled talent. It marks Karnataka's growing semiconductor hub alongside major projects by Lam Research and Bharat Semi Systems.

Škoda Auto Volkswagen expands India operations and commits ₹100 billion

Škoda Auto Volkswagen India is set to invest ₹100 billion over five years to boost local manufacturing, including EVs, SUVs, and Porsche assembly. Backed by Volkswagen AG, this 'India 3.0' strategy targets premium segments and

Can a Board from India Compete with Arduino Uno & Raspberry Pi RP2040?

"YES, we can!"

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors (Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
