

operations in India, hiring 150+ engineers in Bengaluru to boost work on application-specific integrated circuits (ASICs) for telecom gear. The move taps India's semiconductor talent, supporting in-house innovation and reducing supplier dependence. It builds on Ericsson's \$5 billion global R&D push.

Whirlpool India's \$600 million sale sparks bidding war between Reliance and Havells

Reliance Retail and Havells India are vying to acquire a controlling stake in Whirlpool India, as the parent firm Whirlpool Corporation plans to divest 31% to streamline global operations. The \$550-\$600 million deal has also attracted global private equity firms. The buyer may gain up to 57% ownership, triggering India's open offer regulations.

IFC and IndiGrid plan \$55 million BESS project in Gujarat

International Finance Corporation (IFC) and IndiGrid are developing a 180MW/360MWh battery energy storage system (BESS) in Gujarat to boost grid reliability and support peak power demand. IFC has committed ₹4.6 billion (\$55 million), including support from the Clean Technology Fund. The project, one of India's largest BESS initiatives, aligns with Gujarat's 100GW target and India's 500GW renewable energy target by 2030.

Paras secures ₹220 million French deal for counter-drone tech exports

Paras Anti-Drone Technologies has signed a ₹220 million deal with France's CERBAIR to supply up to 30 CHIMERA 200 systems, an India-made RF-based counter-drone technology. Aligned with India's \$5 billion defence export goal, the partnership boosts India's defence footprint in Europe amid rising global demand for counter-UAV capabilities.

Inox Clean Energy acquires Skypower with ₹2.65 billion

Inox Clean Energy Ltd has acquired Skypower Solar India for ₹2.65 billion, adding a 50MW solar plant in Madhya Pradesh to its portfolio. The value-accretive deal supports Inox's goal of 3GW hybrid capacity by 2027. With a 25-year PPA and strong financials, the move aligns with INOXGFL Group's clean energy expansion and manufacturing ambitions.

India's homegrown drone industry to see a \$234 million push soon

India is planning to launch a ₹20 billion (\$234 million) drone incentive scheme to boost domestic production and reduce reliance on Chinese imports amid rising tensions with Pakistan. Backed by SIDBI, the three-year plan supports over 600 firms in drones, components, and software, aiming for 40% local manufacturing by 2027-28 in a fast-advancing regional tech race.
