The Third Quarter Of 2025 Saw Worldwide Semiconductor Sales Rising 15.8% YoY

Global semiconductor sales hit \$208.4 billion in Q3 2025, up 15.8% from Q2, with September sales at \$69.5 billion, which is 25.1% higher YoY. Growth was led by strong demand in memory and logic chips. Regionally, Asia Pacific rose 47.9%, the Americas 30.6%, China 15%, and Europe 6%, while Japan fell 10.2%. Month-on-month, all regions experienced growth, led by the Americas (+8.2%) and the Asia Pacific (+8%).

Worldwide PC Shipments Jump 8.1% In July-September 2025 Quarter

Global PC shipments rose 8.1% YoY in Q3 2025, driven by the upcoming Windows 10 end-of-support and tariff-related inventory shifts. Lenovo led with 17.4% growth, followed by HP (+10.3%), Apple (+14.9%), ASUS (+14.1%), and Dell (-0.9%). The top five held 75% market share. Nearly 40% of PCs still run Windows 10, fueling upgrades.

AI PC adoption is expected to surge after 2026, driven by next-gen chips from Qualcomm, Intel, and Nvidia.

Global Smartphone Shipments See 4% YoY Growth In The Third Quarter Of 2025

Global smartphone shipments rose 4% YoY in Q3 2025, led by strong demand in India and Japan, where shipments grew 9% and 15% YoY, respectively, followed by the APAC and MEA regions. Meanwhile, shipments in North America and Europe declined. Samsung led with 19% share, up 6% YoY, followed by Apple (+9%), Xiaomi (+2%), Oppo, and vivo. Google grew 18% YoY with Pixel 9. Growth was driven by premium models and budget 5G phones, despite weak demand in China and Latin America.
