| <b>EFY Expo Pune</b><br>January 8-10, 2026<br>Auto Cluster Exhibition Center, Pimpri, Pune  | Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.                                                                           | Website: <a href="https://pune.efyexpo.com">https://pune.efyexpo.com</a>                |
| <b>India Electronics Week</b><br>May 13-15, 2026<br>KTPO Expo Center, Whitefield, Bengaluru | India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.                                               | Website: <a href="http://www.indiaelectronicsweek.com">www.indiaelectronicsweek.com</a> |
| <b>embedded India</b><br>May 13-15, 2026<br>KTPO Expo Center, Whitefield, Bengaluru         | It's India's only tech conference-plus-expo focused on Embedded Systems. It caters to developers of embedded systems solutions by empowering them with the latest tech and best practices to develop innovative solutions using cutting-edge tech and out-of-the-box planning.                                                 | Website: <a href="https://www.embedded-india.com">https://www.embedded-india.com</a>    |
| <b>IoTShow.in</b><br>May 13-15, 2026<br>KTPO Expo Center, Whitefield, Bengaluru             | The conferences at IOTSHOW deliver an unsurpassed depth and breadth in practical content. Participate in cutting-edge talks and training by industry stalwarts and thought leaders who are transforming the IoT scene themselves. Build the skills you need to get ahead with your career and the ones you need to stay ahead. | Website: <a href="https://www.iotshow.in">https://www.iotshow.in</a>                    |

Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

Ltd to expand satellite-based internet connectivity across remote and underserved regions. The partnership focuses on deploying low-Earth orbit satellite broadband to deliver high-speed internet in districts with limited fibre access. The agreement prioritises connectivity for government institutions, rural communities, and public infrastructure.

### SECI and Andhra Pradesh join hands for renewable energy projects

Solar Energy Corporation of India (SECI) and the Andhra Pradesh government have formalised two clean energy projects: a 1200MWh battery storage system in Nandyal and a 50MW hybrid solar plant. Announced at the AP Partnership Summit 2025, both will follow a CapEx model with SECI funding and operating them. The projects aim to boost grid stability and advance India's renewable energy targets.

### India may scrap 42GW of stalled green energy projects

The Indian government is reviewing approximately 42 gigawatts of renewable projects that lack power purchase agreements and may cancel those that are no longer viable. Many projects hold letters of award but have no buyers due to weak state distributors and limited storage. The review aims to ease grid congestion and support the

target of reaching 500 gigawatts of clean energy capacity by 2030.

### China challenges India at WTO over EV battery subsidies

China has lodged a complaint against India in the World Trade

Representational image

Organization (WTO), challenging India's subsidies for electric vehicles and batteries. According to China, the measures of the subsidy violate multiple WTO obligations, including import substitution subsidies and the principle of national treatment. These are explicitly prohibited under the multilateral trade rules.

### EV makers urge Tamil Nadu government to extend road tax waiver

EV makers in Tamil Nadu are urging the state government to extend its 100% road tax waiver for electric vehicles beyond its 2025 expiry to maintain its momentum in EV adoption. The incentive, introduced in the

2019 EV policy and extended in 2022, has helped lower upfront costs and boost registrations, but local adoption still lags behind the national average.

### C-DOT and IIT Gandhinagar partner to boost telecom and cybersecurity research

C-DOT, the research arm of the Department of Telecommunications, has signed an MoU with IIT Gandhinagar to establish a Centre of Excellence. The centre will focus on advanced telecom and cybersecurity research, drive innovation, support patent filing, academic exchange, and product development, and offer training and skill development programmes for a stronger research ecosystem.

### Hyundai unveils ₹450 billion plan for its India growth

Hyundai Motor India plans to launch its first locally manufactured electric SUV by 2027 as part of a ₹450 billion investment plan spanning FY2030.

The automaker will introduce 26 new models, with eco-friendly vehicles making up over 50% of its portfolio. The roadmap aims for a 15% market share and for India to become Hyundai's second-largest market by 2030.

### Ola Electric board clears ₹15 billion fundraise

Ola Electric has approved plans to raise upto ₹15 billion through equity and convertible securities to bolster its finances and sustain operations. The fundraising, cleared on 25 October 2025, may involve a public offer, rights issue, or QIP. The move follows its investor exits, rising competition from Bajaj and TVS, and a 23.3% YoY wider Q1 FY26 net loss of ₹4.28 billion.

### Adani Solar achieves record 15,000MW module shipments

Adani Solar has shipped over 15,000MW of solar modules across domestic and international markets.
