

## BUYERS' GUIDE

# Leading Suppliers of SMT AUTOMATED STORAGE SOLUTIONS FOR COMPONENTS

Automated SMT (Surface Mount Technology) Component Storage Solutions are advanced, near-line systems designed to efficiently manage electronic components, including reels, trays, and feeders within modern manufacturing environments.

In SMT manufacturing, every component is unique, costly, and typically packaged on reels or tape. Since SMD reels are treated as individual pick items, each must be retrieved precisely when needed. To maintain component integrity, especially for moisture-sensitive devices (MSDs), proper storage conditions are essential. These components are generally stored at 20-24°C with relative humidity below 60%, ensuring compliance with MSL requirements. The entire process of storing at required temperature and maintaining FIFO along with manual picking is a very tedious task.

Unlike traditional manual storage methods, automated SMT storage solutions leverage RFID, IoT, and AI to provide real-time inventory visibility, automated retrieval, and seamless SMT line integration. Components can be retrieved based on FIFO, FEFO, serial numbers, lot traceability, or any organisation-defined process. With robotics, intelligent software, and ERP/MES connectivity, material handling evolves from a manual, error-prone task into a precise, fully traceable, and space-efficient operation, resulting in faster line changeovers, higher productivity, and better workforce optimisation.

These smart storage and material handling systems are transforming the flow of materials from warehouse receipt to final line delivery by streamlining movement, improving visibility, and eliminating avoidable errors. Built for high-mix, high-volume manufacturing, they deliver unmatched efficiency, significant space savings, and full lifecycle traceability. Capable of storing 1000 to over 10,000 components in compact footprints as small as 1-2m<sup>2</sup>, they support batch preparation, MES connectivity, and the flexibility and control required in modern, dynamic electronics production.

In today's competitive environment, automated component storage is no longer an optional upgrade, it is a strategic investment in precision, efficiency, and operational excellence.

## 10 Leading Global Brands

### ACCUASSEMBLY

Website: [www.accuassembly.com](http://www.accuassembly.com)  
HQ: USA

### ARCADIA SRL

Website: [www.arcadiasrl.it](http://www.arcadiasrl.it)  
HQ: Italy

### ASMPT

Website: [www.asmpt.com](http://www.asmpt.com)  
HQ: Hong Kong

### ESSEGI AUTOMATION

Website: [www.essegiautomation.com](http://www.essegiautomation.com)  
HQ: Italy

### INOVAXE

Website: [www.inovaxe.com](http://www.inovaxe.com)  
HQ: USA

### JUKI CORPORATION

Website: [www.juki.co.jp](http://www.juki.co.jp)  
HQ: Japan

### MYCRONIC

Website: [www.mycronic.com](http://www.mycronic.com)  
HQ: Sweden

### NEOTEL TECHNOLOGY

Website: [www.neotel.com.sg](http://www.neotel.com.sg)  
HQ: Singapore

### SCIENSCOPE INTERNATIONAL

Website: [www.scienscope.com](http://www.scienscope.com)  
HQ: USA

### SEAMARK ZM

Website: [www.seamarkzm.com](http://www.seamarkzm.com)  
HQ: China

*Note: This list is alphabetical*

Inovaxe SMT Reel Storage

### A & A GLOBAL RESOURCES PVT LTD

Website: [www.smt-india.com](http://www.smt-india.com)  
Address: No.327, Siddharth Tower,  
12/3B, Kothrud Pune, Kothrud, Pune,  
Maharashtra - 411038  
Email: [sales@ledindia.net](mailto:sales@ledindia.net)  
Contact: 9823141496  
Brands Supplied: ARCADIA

### ACCUREX SOLUTIONS PVT LTD

Website: [www.accurexsolutions.com](http://www.accurexsolutions.com)  
Address: #782, 3rd Main, 1 Cross, BEML  
Layout, 5th Stage, Rajarajeswari Nagar,  
Bengaluru - 560098 India  
Email: [info@accurexsolutions.com](mailto:info@accurexsolutions.com)  
Contact: 080-28611871  
Brands Supplied: MYCRONIC
