Key Benefits For SMT Manufacturers

- **Productivity Boost.** Drastically reduces line downtime by ensuring components are always available and correct.
- **Material Accuracy & Traceability.** Every reel movement is logged automatically, supporting ISO/IPC traceability.
- **Space Optimisation.** Vertical towers save 60-80% floor space compared to conventional shelving.
- **Labour & Cost Efficiency.** Automation cuts manual handling, counting, and searching efforts, leading to faster ROI.
- **Smarter Planning.** Integration with MES enables predictive replenishment, reducing stockouts and excess inventory.
- **ESD & Moisture Safety.** Controlled environments extend component shelf life and ensure quality compliance.
