India Surpasses Two Million EV Sales In 2024

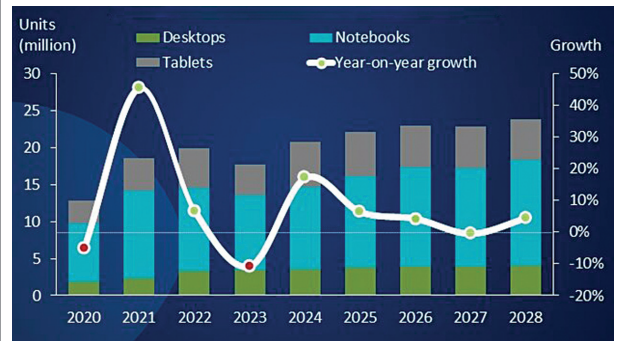

The year 2024 witnessed a 24% YoY rise in sales of electric vehicles (EVs) in India, surpassing two million units. E-2-wheelers led, accounting for 60% of sales, growing 29.73% YoY. E-3-wheelers grew, too, with the cargo segment seeing a 44.63% YoY increase. The sales of electric cars increased by 6.87%. Ola Electric, Mahindra, and Tata Motors dominated respective segments. What is in store for 2025? Despite challenges like price hikes, the outlook remains optimistic.
