Andhra Pradesh to host ₹140 billion private SiC fab, India's first

Andhra Pradesh has signed a ₹140 billion deal with Indichip Semiconductors and Japan's YMTL to establish India's first private silicon carbide (SiC) semiconductor fab at Orvakal Industrial Park. The facility will scale up from 10,000 to 50,000 wafers per month. This project aligns with India's semiconductor goals and aims to generate significant job growth and technological innovation.

Karnataka grants ₹34 billion semiconductor investment by Zoho-backed Silectric

Karnataka has approved a ₹34.25 billion investment by Silectric Semiconductor Manufacturing, backed by Zoho directors, for an electronics manufacturing cluster in Mysuru. The project will create 460 jobs and is part of nine projects worth ₹98.23 billion, expected to generate 5605 jobs. The state is also planning to compete with Gujarat in terms of lucrative incentives to attract more semiconductor investments.

Tata Electronics wins CCI approval for Pegatron acquisition

Tata Electronics Pvt Ltd (TEPL) has been approved by the Competition Commission of India (CCI) to acquire a majority stake in Pegatron Technology India. This acquisition will expand TEPL's smartphone manufacturing presence. The deal, which includes transferring TEL Components' business to Pegatron India, aligns with TEPL's growth in electronics manufacturing and the global smartphone supply chain.

Greaves Electric Mobility announces ₹10 billion IPO plans

Greaves Electric Mobility has filed a draft red herring prospectus (DRHP) for an IPO to raise ₹10 billion. The company, part of Greaves Cotton Ltd, plans to issue fresh shares and sell 189.4 million shares from promoters. The funds will support growth, innovation, and expansion, including battery assembly operations. Greaves Electric is also eyeing competition with industry leaders like Ola Electric and Ather Energy.

GNG Electronics seeks ₹8.25 billion via IPO

GNG Electronics Ltd plans to raise ₹8.25 billion through an IPO, with ₹3.2 billion for debt repayment and ₹2.6 billion

Can a Board from India Compete with Arduino Uno & Raspberry Pi RP2040?

"YES, we can!"

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors (Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
