

## UP unveils incentives to attract ₹30 billion semiconductor investments

Uttar Pradesh has approved a fresh incentive package under its Semiconductor Policy 2024 to attract chipmakers investing ₹30 billion or more. Benefits include tax breaks, power and water subsidies and EPF support. More than ₹320 billion worth proposals, including those from Tarq Semiconductors and Kaynes Semicon, are currently under review.

## Tamil Nadu launches India's first ₹1 billion deep-tech startup policy

Tamil Nadu has launched India's first deep-tech startup policy to accelerate innovation in AI, biotechnology, and robotics. The ₹1 billion policy, unveiled by Chief Minister M.K. Stalin, will support 100 startups, pilot solutions across five government departments, train 10,000 professionals, and award 10 research fellowships, positioning the state as a leading technology and innovation hub.

## PLI Auto Scheme drives ₹356 billion investment

India's PLI Auto Scheme has attracted ₹356.57 billion in investments, disbursed ₹23.21 billion in incentives, and created nearly 49,000 jobs so far. Focused on advanced automotive technologies and electric vehicles (EVs), it has incentivised more than 1.36 million EVs through its five-year programme. Ola Electric is among the prominent beneficiaries, securing approval for nearly ₹3.67 billion in FY25 incentives.

## Tata Group steps up iPhone manufacturing with ₹150 billion electronics investment

Tata Group will invest an additional ₹150 billion to scale its electronics manufacturing business, sharpening its focus on iPhone production and components in India. With total investments nearing ₹450 billion, Tata aims to deepen integration across assembly, components, and supply chains as Apple diversifies beyond China. Meanwhile, about 70% of iPhones sold in the US are now made in India.

## India excluded from US-led nine-nation semiconductor supply chain coalition

The US has launched Pax Silica, a strategic initiative to build a secure, resilient, and innovation-driven silicon supply chain spanning critical minerals, semiconductors, AI infrastructure, and logistics. The inaugural summit included Japan, South Korea, Singapore, the Netherlands, the UK, Israel, the UAE, and Australia, but India was notably absent due to limited capabilities in advanced manufacturing and critical minerals.

## HCLTech buys HPE Telco arm in \$160 million deal

HCLTech acquired Hewlett Packard Enterprise's Telco Solutions business in an all-cash deal valued at up to \$160 million. About 1500 telecom and engineering professionals across 39 countries will join HCLTech,

# An "AWESOME" Development Board from India?

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors (Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
