

Vikran Engineering bags ₹20.35 billion EPC deal

Vikran Engineering has won a ₹20.35 billion EPC contract from Onix Renewables to develop 600MW AC solar projects across Maharashtra within 12 months. The turnkey deal covers design, procurement, supply, erection, testing, commissioning, and key equipment like PV modules and inverters, strengthening Vikran's solar portfolio and supporting its broader growth in power, water, and railway infrastructure.

EV charging startup RoadGrid bags ₹120 million and eyes expansion

EV charging startup RoadGrid has raised ₹120 million in funding led by Venture Catalysts, with angel participation. The capital will expand charger manufacturing, upgrade its software platform, and grow its charging network. RoadGrid offers multi-vehicle-compatible chargers, runs a dual-revenue model, works with utilities and EV makers, and aims to tap India's large charging infrastructure gap.

Ashvini Group set to build India's first EV rare earth magnets

Ashvini Rare Earth has commissioned India's first facility to produce Nd-Pr metal from oxide in Pune, a key input for EV, wind, and defence magnets. The 15-tonne-per-year plant can meet a quarter of domestic demand but is awaiting orders. The company is now exploring magnet manufacturing partnerships or setting up a smaller end-to-end EV-grade magnet line.

Foxconn-HCL names their semiconductor venture India Chip Private Limited

Foxconn and HCL Group have named their semiconductor joint venture India Chip Private Limited, signalling progress toward domestic chip manufacturing. Foxconn has invested US\$37.2 million for a 40% stake, with further investment planned. The Uttar Pradesh government has allotted 48 acres for this venture's OSAT facility focused on display driver ICs.

MediaTek eyes to source chips from India as local ecosystem evolves

MediaTek is considering sourcing more chips from India as the local manufacturing ecosystem matures, its India head Anku Jain said. The firm may move more assembly or manufacturing if costs turn competitive. MediaTek commands 46% of India's smartphone chipset market and employs over 1000 engineers focused on global R&D.

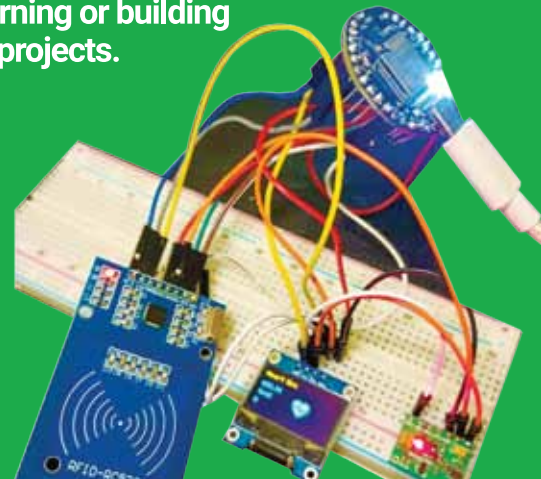

Lenovo aims to double its India business in three years

Lenovo plans to double its India business over the next three years, driven by strong growth in its Motorola smartphone sales and rising demand for infrastructure and services. Motorola has more than doubled its revenue over the past two years. Lenovo India posted \$1.2 billion in revenue in the September quarter, up 23% year-on-year, supported by digitisation and premium product demand.

DIY KIT: NFC, RFID, IoT & Embedded Systems

Want to learn and master NFC and RFID technology along with an IoT-enabled embedded system?

This kit includes all the essentials to start learning or building RFID/NFC projects.

POWERED BY

IndusBoard
COIN

Super small sized development board that enables you to create solutions for many use-cases where small size is super important.

SPECIAL INTRO PRICE

₹1,999 (Inclusive of GST)
