Indian Tablet Market Jumps 46% YoY Driven By 5G Adoption

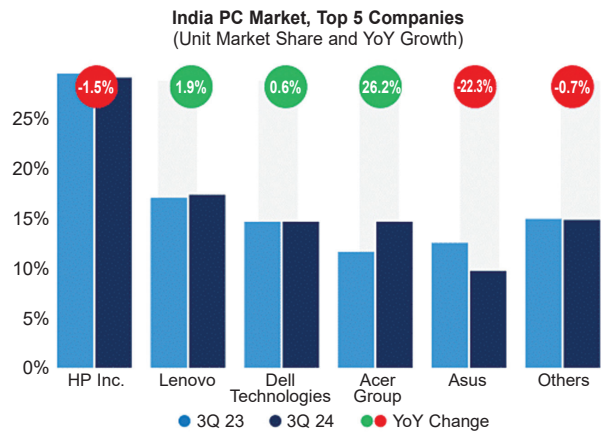

The Indian tablet market surged 46% YoY and 79% QoQ in Q3 2024, driven by 5G tablet adoption and premium products. Wi-Fi-only tablets held a 62% market share, while 5G tablets rose to 19%. Brand-wise, Apple led with a 34% share and 95% YoY sales increase, driven by the iPad 10 Series, and followed by Samsung. Recent market entrants like Xiaomi and OnePlus skyrocketed, recording 146% and 97% sales growth. Thanks to value-seeking customers, the market looks promising.
