US\$2.14 billion for capital expenditure and US\$6.43 billion in production-linked incentives. ELCINA predicts a US\$248 billion deficit in electronics inputs by 2030, which could be reduced with support for non-semiconductor components.

BIS cancels Chinese registrations, limits imported components

The Bureau of Indian Standards (BIS) has revoked the registration of two Chinese companies, Guangdong Cvasun and Ganzhou Novel, for supplying substandard lithium-ion cells. BIS rejected recertification for 50 component suppliers from China and Vietnam, impacting air-conditioner and refrigerator manufacturing. This move aligns with stricter quality standards and promotes localisation efforts.

Tata Power's ₹1.2 trillion investment powers Rajasthan's RE future

Tata Power has planned a ₹1.2 trillion investment in Rajasthan's renewable energy, with ₹750 billion for solar, wind, EV charging, and power grid projects in Bikaner, Jaisalmer, and Jodhpur. The company also aims to install rooftop solar in 1 million households. This investment will create 28,000 jobs and improve energy access in the state.

LG Electronics India files IPO to raise \$1.8 billion

LG Electronics India had recently filed for an IPO to raise ₹1.8 billion by selling 102 million shares (15% stake), with parent LG Electronics Inc. offloading its stake. The IPO proceeds may fund expansion, including a ₹50 billion factory in Andhra Pradesh. Despite strong financials, LG India faces future competition concerns from its South Korean parent.

Boat finalises bankers for \$300-500 million IPO

Boat, an Indian wearable and audio brand, has appointed ICICI Securities, Goldman Sachs, and Nomura as bankers

Can a Board from India Compete with Arduino Uno & Raspberry Pi RP2040?

"YES, we can!"

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors
(Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
