

Government approves second ECMS batch investments worth ₹71.72 billion

Under the Electronics Component Manufacturing Scheme (ECMS), the government has approved 17 new projects in its second round, unlocking ₹71.72 billion in investments across nine states. The projects are expected to generate ₹651.11 billion in output and create over 11,800 direct jobs, strengthening India's electronics supply chain and competitiveness.

Andhra Pradesh clears ₹1 trillion investment bet on chips and quantum tech

Focusing on semiconductors and quantum technologies, the Andhra Pradesh Cabinet approved ₹1 trillion in investments. The key initiatives include Indichip Semiconductors' ₹230 billion facility in Orvakal and the Andhra Pradesh Quantum Computing Policy 2025-30, which includes the Amaravati Quantum Computing Centre. IT infrastructure projects in Visakhapatnam will create around 40,000 jobs, boosting high-tech and employment growth.

Centre clears ₹250.6 billion Export Promotion Mission to combat tariffs

The Central government has approved the Export Promotion Mission with an outlay of ₹250.6 billion to streamline export schemes and boost competitiveness. Implemented from FY 2025 to FY 2031, it will support MSMEs, first-time exporters and labour-intensive sectors. The Mission replaces multiple schemes with a single framework and will be jointly run by key ministries and industry bodies.

DPDP Rules 2025 trigger India's new data regime

In November 2025, India notified the Digital Personal Data Protection Rules, 2025, completing the framework under the DPDP Act, 2023. Issued by MeitY, the rules establish a unified, rights-based data regime with strict consent, security, localisation, and breach-reporting norms. Electronics, IoT, and consumer-tech firms face phased compliance, penalties up to ₹2.5 billion, and full obligations by May 2027.

JSW bets \$90 million in military drone manufacturing in Hyderabad

JSW Group announced a \$90 million investment to establish a drone manufacturing facility at the Maheshwaram electronics manufacturing cluster near Hyderabad. The project, led by JSW Defence, will produce the 'V-BAT' unmanned aerial system under a long-term licensing and technology-transfer partnership with the US-based defence technology firm Shield AI.

Tata, Cyient, and Applied Materials to rewire SCL Mohali in ₹45 billion fab upgrade

The Semi-Conductor Laboratory (SCL) in Mohali is set for a major overhaul, with Tata Semiconductor Manufacturing, Cyient Semiconductors, and Applied Materials emerging as the lowest bidders for its ₹45 billion

An "AWESOME" Development Board from India?

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors (Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
