

Updates From EFY Group

Event, Date and Venue	Topics	Contact for details
EFY Expo Pune January 8-10, 2026 Messe Global Convention Center, Pune	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://pune.efyexpo.com
India Electronics Week May 13-15, 2026 KTPO Expo Center, Whitefield, Bengaluru	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
embedded India May 13-15, 2026 KTPO Expo Center, Whitefield, Bengaluru	It's India's only tech conference-plus-expo focused on Embedded Systems. It caters to developers of embedded systems solutions by empowering them with the latest tech and best practices to develop innovative solutions using cutting-edge tech and out-of-the-box planning.	Website: https://www.embedded-india.com
IoTShow.in May 13-15, 2026 KTPO Expo Center, Whitefield, Bengaluru	The conferences at IOTSHOW deliver an unsurpassed depth and breadth in practical content. Participate in cutting-edge talks and training by industry stalwarts and thought leaders who are transforming the IoT scene themselves. Build the skills you need to get ahead with your career and the ones you need to stay ahead.	Website: https://www.iotshow.in

AEIM plans ₹100 billion investment in Raipur semiconductor plant

Chennai-based Artificial Electronics Intelligent Materials Limited (AEIM) will invest ₹100 billion in a new semiconductor materials plant in Raipur, Chhattisgarh, by 2030, supported by state incentives and 11.28 acres (4.56 hectares) allotted in Kosala Industrial Park. Construction begins immediately, with phase one completing by May 2026. The facility will create over 4000 skilled jobs and start commercial production by the third quarter of 2026.

Tata Electronics might bag Intel as the first customer for the India fab

Tata Electronics has named Intel as its first potential customer for its planned semiconductor facilities, which are backed by a \$14 billion investment in fabs in Gujarat and Assam. The partnership covers chip manufacturing, OSAT, advanced packaging, and AI-PC solutions, positioning India as a future top-five PC market and an emerging global semiconductor hub.

DRDO and France's DGA join hands to boost defence R&D collaboration

The Defence Research and Development Organisation (DRDO) and France's Directorate General of

Armaments have signed a technical agreement to deepen collaboration in defence research and development. The framework supports joint projects, specialised training, testing, and regular technical exchanges. It also enables workshops and seminars aimed at skill development and knowledge sharing in key defence technology areas.

US-based Bourns sets up first India design hub

California-based Bourns has opened its first design centre in Bengaluru, eyeing to support faster, collaborative product development across power, protection, and sensing applications. The 8000 sq ft (about 743.2243 sq metre) facility offers local access to design tools, reference platforms, rapid prototyping, and hands-on technical support, strengthening customer engagement and innovation.

Karnataka draws semiconductor, AI Interest from UK firms

UK-based SCI Semiconductors is considering Bengaluru as a location for a global capability centre, which could boost domestic secure micro-processor production. During a UK investment mission in November

2025, Karnataka minister MB Patil met firms including ARM, Weir, Samco, and Latos. Proposals span semiconductors, renewables, data centres, and advanced manufacturing, aligned with Karnataka's new industrial policy.

ideaForge wins ₹1 billion Army drone orders

ideaForge Technology received defence orders totalling about ₹1 billion from the Indian Army, including ₹750 million for the ZOLT tactical drone and ₹300 million for the SWITCH V2 UAV. Both platforms, unveiled at Aero India 2025, support ISR, precision payload delivery, VTOL operations, and GNSS-denied autonomy, and are resilient to electronic warfare, strengthening India's next-generation UAV capabilities.

India and Russia deepen cooperation on EVs

Following Russian President Vladimir Putin's visit, India and Russia announced a renewed partnership focusing on EV technology

and sustainable solutions. Prime Minister Modi highlighted plans to boost bilateral trade to \$100 billion by 2030, explore an FTA, and collaborate on EVs, automotive components, and wireless mobility.

India and Singapore deepen semiconductor cooperation after high-level talks

In November 2025, India and Singapore agreed to enhance collaboration in semiconductor technologies, following IT Minister Ashwini Vaishnaw's visit. The Singapore Semiconductor Industry Association announced that it will
