

SAY HELLO TO HALO

The **NEW** 4K digital inspection system from Vision Engineering.

New EVO Cam HALO combines stunning 4K image quality with advanced, adaptive illumination, and new intelligent software, empowering you to capture even the most elusive details with unparalleled accuracy.

APPLICATIONS USES

Complex Assemblies	Ensuring all components are correctly placed and connected.
Solder Joints	Vital in electronics manufacturing for assessing reflow quality and identifying defects.
Printed Circuit Boards (PCBs)	Detailed inspection of traces, pads, and component placement.
Plated-through Holes	Ensuring proper plating and integrity.
Solder Masks and Solder Joints	Critical for electronic reliability.
Fluorescent Coatings	The white/UV light option allows for easy inspection of and through these coatings.
