India's FDI hits \$81 billion, tech drives boom

India saw a 14% rise in FDI in FY 2024-25, reaching US\$81.04 billion—double the inflow in FY 2013-14. Key sectors included services, software, and electronics manufacturing, with investments from Foxconn (US\$1.5 billion in Chennai) and LG (US\$600 million in Andhra Pradesh). Maharashtra led in FDI share, while Singapore topped the source countries. Backed by policy reforms and PLI schemes, India is fast emerging as a global electronics hub.

PEOPLE (on the move)

Boeing appoints Shashank Jha as India CIO, IDT&S site leader

Boeing has appointed Shashank Jha as India's new site leader for Information, Digital Technology, and Security (IDT&S) and Chief Information Officer, based in Bengaluru.

Overseeing 1500 employees, he will drive collaboration, talent growth, and innovation. With over 20 years of experience in IT and engineering, Jha will also lead global commercial product lifecycle management, further strengthening Boeing's digital transformation.

Manish Gupta named New President and MD of Dell Technologies India

Dell Technologies has welcomed Manish Gupta as President and Managing Director for India, succeeding Alok Ohrie. Based in Bengaluru, Gupta will lead Dell's growth and strategy, reporting to APJC President Peter Marrs. With 25+ years in IT and a decade at Dell, Gupta's leadership aims to boost innovation, customer success, and market expansion in India.
