

Assam unveils a ₹250 billion incentive plan to attract electronics manufacturers

Assam recently announced setting aside ₹250 billion in state incentives for electronics manufacturing, along with a 60% top-up on central schemes. Chief Minister Himanta Biswa Sarma unveiled the plan at the 2025 Assam Electronics Round Table. Key highlights include Tata's ₹270 billion OSAT plant, semiconductor incentives, and infrastructure boosts, as the state courts investors.

Karnataka approves ₹171.83 billion in new industry investments

Karnataka approved a total of ₹171.83 billion worth industrial investment proposals, including ₹13.3 billion from Bosch Automotive Electronics and multiple projects in defence electronics, modular systems, and spare parts across 11 districts. These are expected to generate around 12,500 jobs. The government reaffirmed its commitment to high-impact initiatives in electronic and industrial manufacturing.

India's sixth semiconductor unit by HCL and Foxconn gets green light

The central government has approved a ₹37.06 billion chip packaging plant by HCL and Foxconn near Jewar airport, UP, under the India Semiconductor Mission. The OSAT unit, producing 36 million display driver chips monthly, is the state's first and sixth nationally. Backed by ₹15 billion in incentives, production starts in 2027, marking India's strategic semiconductor advancement.

Government eases semiconductor SEZ land rules, clears Micron and Aequs projects

India has eased SEZ norms for semiconductor and electronics units, reducing the minimum land requirement from 50 to 10 hectares. Encumbered land may now qualify if leased to government bodies. Following this, the SEZ Board cleared Micron's ₹130 billion, 37.6-hectare Gujarat project and Aequs' ₹1 billion, 11.6-hectare Karnataka facility for semiconductor and electronics manufacturing.

India's \$3 billion space mission fast-tracks spy satellites for border surveillance

India is fast-tracking its \$3 billion SBS-3 satellite surveillance project amid rising tensions with Pakistan post-Pahalgam attack. Private firms must now deliver 52 satellites by 2026, not 2028. One launch is expected this year. The move, tied to Operation Sindoor, boosts border monitoring and disaster response, marking a major shift toward private sector space collaboration.

Tata Sons to pump ₹300 billion into businesses, including electronics

Tata Sons plans a ₹300 billion (\$3.5 billion) equity boost for Tata Electronics, defence, and battery sectors, alongside Tata Digital and Air India. Part of a \$120 bil-

An "AWESOME" Development Board from India?

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors
(Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
