

# Uninyvin Cable

- Suitable for use in continuous service
- Ambient temperature  $-30^{\circ}\text{C}$  to  $65^{\circ}\text{C}$
- Good Moisture & Abrasion Resistance
- Good Resistance to fuels, oils and alkalis

## APPLICATIONS

UPS Battery Cables

UPS & Inverter Wiring

Battery Bank Interconnections

Aircraft Wiring

Military Applications

Panel Board Wiring

Electric Motors, Transformers, Solar Power

Equipments, HVAC, Diesel Generators

Complete Cable Sizes U-22 to U-0000 Available

**RJ Industrial Corporation** is a unit of Roorkee based RJ Group established in 1988. It has two manufacturing units:

**RJ Industrial Corporation** situated at 1-2, Industrial Estate, Roorkee-247667 and manufactures of specialty wire & cables for defense, power and telecommunications. It has nearly 20,000 Sq. feet working space and having around 60 employees. It has got all defense approvals and others - RDSO, LCSO, IATF16949, ISO9001-2015, ISO14001-2015, ISO45001-2015 and CE approvals and regular supplier to Bharat Electronics Ltd. (BEL), Bharat Dynamics Ltd. (BDL) and BHEL units since 1988 apart from no. of customers like Amphenol, DMRC ECIL, NTPC, L&T, NPCIL, HAL etc.

**Raycor Electromech** situated at KH No. 1100-1101, Salempur Rajputan Industrial Estate, Roorkee-247667, manufactures of quality conductors for defense in silver, tin and nickel plating, mechanical and electrical assemblies, wooden assemblies, coaxial cables etc. It has nearly 30,000 Sq. feet working space and 40 employees, the unit is established in 2010 and have ISO9001-2015, ISO14001-2015, ISO45001-2015 and CE approvals.

## Uninyvin Cables, has superior properties, if compared with PVC cables

1. Low weight ratio, for a given current, nearly 1:3 is cross section used for similar current capacity.
2. High temperature range, from  $-30^{\circ}\text{C}$  to  $105^{\circ}\text{C}$ , compared to conventional PVC cable, and from  $-20^{\circ}\text{C}$  to  $70^{\circ}\text{C}$ .
3. Cost effective, due to less size may be used.
4. Abrasion Resistance - Good
5. Mechanical Strength - High
6. Resistance to Oils, Fluids, Alkalies, and Fungus growth
7. High Fire Retardancy
8. The conductor is tin plated so, solderability is good and oxidation of conductor is protected.
