

Maharashtra unveils new EV policy, targets 30% sales by 2030

Maharashtra's EV Policy 2025 targets 30% electric vehicle sales by 2030, with a ₹19.95 billion budget. It expands incentives to 13 vehicle types, including buses and commercial vehicles. Key highways will be toll-free for EVs, and public charging infrastructure will grow. New projects must include EV chargers, and battery recycling zones will be established.

India may permit up to 26% Chinese stake in select electronics JVs

India may soon allow Chinese firms to hold up to 26% equity in joint ventures for critical electronics components, up from the current 10% cap for other sectors. This move aims to attract technology transfer and strengthen India's electronics ecosystem. The government is evaluating Chinese investments on a case-by-case basis, focusing on design and quality standards.

LG invests \$600 million in Andhra Pradesh plant, delays IPO launch

LG Electronics has paused its ₹150 billion IPO for its Indian subsidiary, initially planned for May, citing market instability. Despite this, LG is expanding in India with a \$600 million investment in a new manufacturing plant in Andhra Pradesh, its third facility. The plant, set to create 1500 jobs, will strengthen LG's presence in India's appliance market, producing washing machines, refrigerators, and more. The IPO may restart once market conditions improve, with a potential listing after August.

Financial misuse leads to BluSmart's shutdown amid SEBI investigation

BluSmart, once India's green mobility leader, has halted operations after SEBI exposed financial misconduct by co-founders Anmol and Puneet Singh Jaggi. Funds meant for EV acquisition were misused for personal luxuries. SEBI banned the brothers from directorial roles. The company has promised refunds within 90 days, while rival Evera absorbs some of BluSmart's fleet.

New ECMS attracts Tata investment, Dixon production plans begin

Dixon Technologies and Tata Electronics are set to manufacture electronic components under India's Electronics Component Manufacturing Scheme (ECMS). Tata plans a ₹20 billion investment, while Dixon starts with display modules and will scale production for exports. The initiative aims to boost local production, create 91,600 jobs, and drive sustainable manufacturing growth.

SEBI clears Greaves Electric Mobility's ₹10 billion IPO plan

SEBI has approved the IPO of Greaves Electric Mobility, making it India's third listed EV two-wheeler firm after

An "AWESOME" Development Board from India?

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors
(Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
